1.1.1. Psychotherapy Notes are notes recorded (in any medium) by a mental health professional documenting or analyzing the contents of conversation during a private counseling session or a group, joint, or family counseling session, and that are separated from the rest of the individual's medical record.¹

1.1.2. Psychotherapy notes excludes medication prescription and monitoring, counseling session start and stop times, the modalities and frequencies of treatment furnished, results of clinical tests, and any summary of the patient’s diagnosis, functional status, the treatment plan, symptoms, prognosis, and progress to date.

2.1. Definition under 42 CFR Part 2.

2.1.1. Alcohol and drug treatment program information (“Substance Abuse Program Information”) is any information which would identify any individual as having applied for or been diagnosed or treated by any health care provider or health care facility which holds itself out as providing, and provides, alcohol or drug abuse diagnosis, treatment or referral for treatment services, including:

2.1.1.1. An identified unit within a general medical facility which holds itself out as providing, and provides, alcohol or drug abuse diagnosis, treatment or referral for treatment (including, for example, an inpatient detoxification unit); and

2.1.1.2. Medical personnel or other staff in a general medical care facility whose primary function is the provision of alcohol or drug abuse diagnosis, treatment or referral for treatment and who are identified as such providers.²

2.1.2. Substance Abuse Program Information does not include diagnostic or treatment information from a general health care facility which does not hold itself out as providing alcohol or drug abuse diagnosis, treatment, or referrals for treatment. Hospital Emergency Departments are generally not covered by 42 CFR Part 2 (except where they hold themselves out specifically as providing alcohol and drug abuse treatment or referral services) and information from them is not included in Substance Abuse Program Information under this Policy.

2.2. Sharing Substance Abuse Program Information for Emergencies.

2.2.1. Substance Abuse Program Information may only be uploaded or requested through the Services (i) to medical personnel to the extent necessary to meet a bona fide medical emergency in which the patient’s prior informed consent cannot be obtained (“Emergency Disclosure”); or (ii) where an individual has provided consent for sharing such information through the Services.

In the event of an Emergency Disclosure, the Subscriber must document, or arrange for system documentation of, the following information (1) the name of the medical personnel to whom disclosure was made and their healthcare facility, (2) the name of the individual making the disclosure, (3) the date and time of the disclosure, and (4) the nature of the emergency.

3. Other State-Specific Categories of Sensitive Information

3.1. To the extent that the state laws applicable to the Subscriber impose additional restrictions and/or consent requirements beyond those applicable to Patient Data generally, Subscriber is responsible for knowing and complying with all such restrictions and requirements. By way of example only, the state laws which apply to the Subscriber may impose specific restrictions or other obligations with respect to the use and disclosure of (a) certain types or sources of mental health information, (b) certain HIV and other sexually-transmitted disease information, and (c) certain types or sources of drug or alcohol treatment information.

3.2. Any Patient Data which is subject to additional restrictions and/or consent requirements under applicable state law as described in the preceding Section 3.1 is considered to be Sensitive Information under this Policy and may not be shared through the Services, except where the individual to whom the Sensitive Information pertains has provided legally sufficient written consent to such sharing.
